May 28, 2009

Honorable Mayor and
Members of the City Council
City of La Marque, Texas

The Finance Department and City Manager's Office is pleased to submit the Comprehensive Annual Financial Report of the City of La Marque, Texas, for the fiscal year ended September 30, 2008.

This report is published to provide the City Council, City staff, our citizens, our bondholders and other interested parties with detailed information concerning the financial condition and activities of the City government. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

To the best of our knowledge and belief the enclosed data is accurate in all material respects, and is organized in a manner designed to fairly present the financial position and results of operations of the City as measured by the financial activity of its various funds. We also believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City financial affairs have been included.

The financial statements of the City of La Marque have been audited by Null-Lairson, P.C. Certified Public Accountants in order to provide reasonable assurance that the financial statements of the City of La Marque for the fiscal year ended September 30, 2008 are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The Independent Auditor's Report reflects an unqualified opinion that the City of La Marque's financial statements for the fiscal year ended September 30, 2008, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The Independent Auditor's Report is included as the first component of the financial section of the report.

THE REPORT

This Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The introductory section includes this transmittal letter, a listing of the City Officials and an organizational chart of the City. The financial section includes a Management and Discussion Analysis (MD&A), basic financial statements and combining and individual fund statements and schedules, as well as the independent auditors' report on the basic financial statements. The MD&A is a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement and should be read in conjunction with the MD&A. The City of La Marque's MD&A can be found immediately following the report of the independent auditors. The statistical section includes financial and demographic information, usually presented on a multi-year basis that is relevant to a financial statement reader.

The Financial Section described above is prepared in accordance with generally accepted accounting principles for governments as prescribed by the Governmental Accounting Standards Board (GASB) and other professional associations, as applicable.

Honorable Mayor and
Members of the City Council

The financial reporting entity (the government) includes all funds of the primary government, the City of La Marque, as well as its component unit. Component units are legally separate entities for which the primary government is financially accountable. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations and cash flows from those of the primary government. The La Marque Economic Development Corporation is reported as a discretely presented component unit.

CITY PROFILE

Location

The City is located in the Gulf Coast area of Texas just north of Galveston. La Marque is only 45 miles south of Houston and less than 20 miles south of NASA's Johnson Space Center, and is readily accessible via the Interstate Highway 45 corridor. The City encompasses 14.8 square miles with a population of approximately 13,805 and shares its boundaries with Texas City and Hitchcock.

Organization

Originally part of the Republic of Texas Land Grant, the area prospered along with the growth of the petrochemical industry in Texas City, and was incorporated in 1953 under the provisions of the Home Rule City Act. The City operates under a Council-Manager form of government comprised of a Mayor and four council members, and is responsible for enacting legislation in the form of ordinances, resolutions, and regulations governing the City. The City has an Economic Development Corporation, Building Standards Commission, Clean City Commission and Planning Commission. The City Manager is the chief administrative officer of the City, and is responsible for enforcement of laws and ordinances, as well as appointment of various department heads of the municipal organization.

Services Provided

The City provides to its citizens those services that have proven to be necessary and meaningful and which the City can provide at the least cost. Major services provided under general government and enterprise functions are: police, fire and ambulance, streets, water and wastewater utilities, solid waste, code enforcement, parks and recreation, public library, public improvements, community development, planning and general administrative services.

Accounting System and Budgetary Control

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls as deemed appropriate by the City Manager. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by the City Manager. All internal control evaluations occur within the above framework. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding (1) safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The City believes that its internal accounting controls adequately safeguard and provide reasonable assurance from improper recording of financial transactions. The City's accounting controls are designed to provide reasonable assurance that errors or irregularities that could be material to the financial statements are prevented or would be detected within a timely period by employees in the normal course of performing their assigned duties.

Honorable Mayor and
Members of the City Council

The City's annual budget is the basis for La Marque's financial planning and control. All departments submit requests for appropriation to the City manager. These requests are the starting point for developing a proposed budget. The City manager then presents this proposed budget to the City council for review. The council is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the City of La Marque's fiscal year. The appropriated budget is prepared by fund, function, department and category. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the basic financial statements for the governmental funds. For governmental funds, other than general fund, with appropriated annual budgets, this comparison is presented in the nonmajor governmental funds subsection of this report.

Activities of the General Fund, Special Revenue Funds, Debt Service Fund, and Enterprise Funds are included in the annual appropriated budget. Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the departmental level.

ECONOMIC OUTLOOK AND FINANCIAL CONDITION

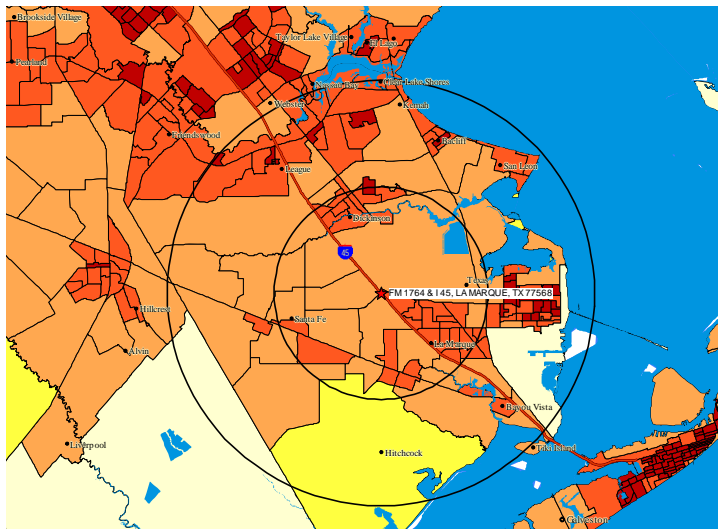

La Marque is located on the upper Texas coast of the Gulf of Mexico along the Interstate 45 corridor in south central Galveston County. La Marque is twenty minutes south of the city of Houston and 15 minutes north of Galveston Island. The City has traditionally been a bedroom community, but is now experiencing tremendous growth in both residential and commercial areas. The educational system includes four college-level institutions: The University of Texas Medical Branch at Galveston, College of the Mainland of Texas City, Galveston Community College at Galveston, and the Texas A & M Marine Institute at Galveston. The City is also home to Kay Bailey Hutchinson, the first woman to serve as a United States Senator from Texas.

Local Economy

The western portion of the city along Interstate 45 is leading the explosive commercial development, which started several years ago with the building of Gulf Greyhound Park, touted as the world's largest greyhound race track. The neighboring area is now home to the 226,000 square foot Wal-Mart Super Center, which opened in April 2003. The Wal-Mart opening has spurred other commercial developments such as La Marque Center, Bay Park Shopping Center, and La Marque Crossing Shopping Center, all housing a variety of specialty retail stores, restaurant and entertainment facilities.

Honorable Mayor and
Members of the City Council

Legend

Future Economic Outlook

The total number of new subdivision lots platted in La Marque topped off at 2,450 in seven subdivisions with home prices ranging from \$115,000 to \$215,000.

Additionally, the 2010 county population is expected to increase by 7.7% over the 2000 census. This region also boasts a high educational attainment with 63% of the population over 25 having some college or more attributing to the average income of \$60,838, median household income of \$50,846, and per capita income of \$23,685.

Specifically, La Marque's percentage of owner occupied housing units is 73%, which is 6.8% greater than Galveston County as a whole.

Long-term Financial Planning

The City of La Marque's growth has been steady over the past several years. It is anticipated that La Marque will expand rapidly when the housing market recovers from the current economic downturn.

La Marque's large amount of developable acreage and the commercial developments that continue to move south will soon converge creating an economic jolt. The City also anticipates a continued natural progression of movement from Galveston Island as the recovery process moves forward. La Marque will also be getting the "Tejas" building back on the tax roll when it changes from public to private ownership.

Street improvements and public transit are on the horizon as well. Cedar Drive will be revamped from I-45 to City Hall. Effective June 15, 2009, La Marque Connect is coming to town. Connect Transit is a bus service that will stop at various retail stores, City Hall, and the Galveston County Health District. This new transit service will create jobs with benefits, keep federal and state dollars in the community, and continue opportunities for infrastructure improvements.

La Marque will also continue to improve and repair sewer lines. During the Cedar Drive project a new 12" trunk line for water will be installed. With these types of major improvements to the infrastructure, La Marque is setting the table to handle the anticipated growth for years to come.

Honorable Mayor and
Members of the City Council

Cash Management Policies and Practices

Cash temporarily idle during the year was invested in certificates of deposit, U.S. Agency securities, mutual funds and investment pools. Maturities of these investments range from one day to eighteen months. Interest rates on these investments range from 1.91% to 3.16%. The primary objectives of the City's investment policy, in priority order, are safety (preservation of capital), liquidity (to provide adequate and timely working funds), and return on investment (obtaining a rate of return commensurate with investment risk constraints and cash flow needs).

Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. In addition, a designation for self-insurance has been established in the General and Enterprise Funds to provide a designation of funds to cover the risk of loss for physical damage to vehicles. This designation is not, nor is it intended to be a traditional self-insurance program. It is rather a designation of funds established to meet deductibles under the City's commercial insurance coverage.

AWARDS AND ACKNOWLEDGEMENTS

Awards

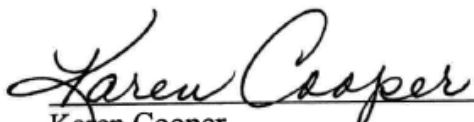

This report has been prepared in accordance with guidelines established by the Government Finance Officers Association (GFOA) for its Certificate of Achievement for Excellence in Financial Reporting. The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2007. This was the fourteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

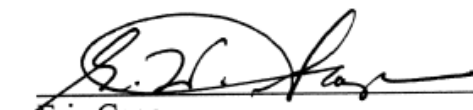

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of the CAFR was made possible by the efforts of the City audit firm, Null-Lairson, P.C., along with the City Finance Department. Other departments within the City were cooperative in providing essential information to the Finance Department in a timely and professional manner and we extend our thanks to responsible persons in those departments. In addition, we thank the Mayor and members of the City Council for the responsible decisions they have made in the interest of preserving the financial integrity of the City of La Marque.

Respectfully submitted,

Karen Cooper
Director of Finance

Eric Gage
City Manager

Independent Auditors' Report

The Honorable Mayor and
Members of the City Council
1111 Bayou Road
La Marque, Texas 77568-4299

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the City of La Marque, Texas as of and for the year ended September 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of La Marque's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the City of La Marque, Texas, as of September 30, 2008, and the respective changes in financial position, and where applicable, cash flows thereof and the budgetary comparison for the general fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2009, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the schedule of funding progress as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of La Marque's basic financial statements. The combining and individual fund statements and schedules that include: combining financial statements for nonmajor governmental funds and internal service funds; individual fund annual budgetary comparison schedules; combined schedule of investments; schedule of changes in taxes receivable; combined schedule of bonds and other long-term debt; and, debt service requirements to maturity are presented for purposes of additional analysis and are not a required part of the basic financial statement of the City of La Marque. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

The accompanying schedule of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*, and is also not a required part of the basic financial statements of the City. The schedule of expenditures of federal awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections listed in the foregoing table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements of the City of La Marque. Such additional information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Null-Lairson, PC". The signature is written in a cursive, flowing style.

Management's Discussion and Analysis

(This page intentionally left blank)

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Comprehensive Annual Financial Report, we present a narrative overview and analysis of the financial activities of the City of La Marque for the fiscal year ended September 30, 2008. Please read it in conjunction with the independent auditors' report, our letter of transmittal and the City's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

- The assets of the City of La Marque exceeded its liabilities at the close of the most recent fiscal year by \$25,357,960 (*net assets*). Of this amount, \$6,846,183 (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's net assets decreased by \$885,996 as a result of this year's operations.
- During the year, the City's government funds had expenses that were \$105,074 more than the \$11,319,689 generated in tax and other revenues for governmental programs (before special items). This compares to last year when expenses exceeded revenues by \$2,727,438. The current year expenses in excess of revenues were due primarily to expenditures in the capital projects fund.
- As of the close of the current fiscal year, the City of La Marque's governmental funds reported combined ending fund balances of \$8,431,306, an increase of \$276,824 in comparison with the prior year.
- The General Fund ended the year with a fund balance of \$2,712,292, which is \$370,615 more than the prior year.
- The resources available for appropriation were \$1,090,689 more than budgeted for the General Fund.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City of La Marque's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of La Marque's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of La Marque is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Both of the government-wide financial statements distinguish functions of the City of La Marque that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of La Marque include general government, public safety, public works, sanitation and Urban Housing and Rehabilitation. The business-type activities of the City of La Marque include the Utility fund, Water and Sewer System Revenue fund and the Community Development Block Grant fund. The government-wide financial statements include not only the City of La Marque (the *primary government*), but also a legally separate Economic Development Corporation for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of La Marque, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of La Marque maintains sixteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and capital projects fund which are considered to be major funds. Data from the other seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of La Marque adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Proprietary Funds. The City of La Marque maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of La Marque uses enterprise funds to account for its Utility fund, Water and Sewer System Revenue fund, and Community Development Block Grant fund.. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City of La Marque uses internal service funds to account for its equipment replacement and for its equipment maintenance insurance. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Utility Fund and for the Water and Sewer System Revenue and Interest and Sinking Funds, all of which are considered to be major funds of the City of La Marque. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of La Marque's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City of La Marque maintains one fiduciary fund, the Library Memorial Fund.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of La Marque's progress in funding its obligation to provide pension benefits to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds, internal service funds, and fiduciary funds are presented immediately following the required supplementary information on pensions.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of La Marque, assets exceeded liabilities by \$25,357,960 at the close of the most recent fiscal year.

By far the largest portion of the City of La Marque's net assets (51 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of La Marque's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

City of La Marque's Net Assets

	Governmental Activities		Business-type Activities		Total	
	2008	2007	2008	2007	2008	2007

Unrestricted	3,542,276	3,545,880	3,303,907	3,624,165	6,846,183	7,170,045
Total net assets	\$ 14,542,409	\$ 14,574,662	\$ 10,815,551	\$ 11,642,787	\$ 25,357,960	\$ 26,217,449

An additional portion of the City of La Marque's net assets (21.6 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$6,846,183) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of La Marque had positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

There was an increase of \$39,223 in restricted net assets reported in connection with the City of La Marque's business-type activities resulting from decreased interest and fiscal charges on revenue bonds payable.

The government's net assets decreased by \$885,996 during the current fiscal year due primarily to an increase in personnel costs for the police and fire departments, as well as an increase in sanitation department costs for residential and container collections.

Governmental Activities. Governmental activities decreased the City of La Marque's net assets by \$58,760. Business-type activities generated a decrease of \$827,236 resulting in a combined net decrease of \$885,996. Key elements of this decrease are as follows:

- Public safety expenses increased \$734,796 (14.6 percent) due to an increase for salaries and related benefit costs for both police and firefighters due in part to overtime costs following Hurricane Ike.
- Sanitation expenses increased \$159,304 (13.4 percent) due to an increase in residential pickup costs as well as expenses for container collection.

Business-type Activities. Business-type activities decreased the City of La Marque's net assets by \$827,236. Key elements of this decrease are as follows:

- Charges for services for business-type activities were sufficient to cover operating expenses excluding depreciation of \$1,211,576. Although rates are appropriate to generate sufficient cash flow; an increase in personnel costs of \$147,776 contributed to the current year net loss.
- The cost of supplies increased \$68,194 and spring and summer drought conditions resulted in a need for additional purchased water of \$26,094 as compared to the prior year.

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Financial Analysis of the Government's Funds

The City of La Marque uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of La Marque's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of La Marque's governmental funds reported combined ending fund balances of \$8,431,306, an increase of \$276,824 as compared to the prior year. *Unreserved fund balance*, which is available for spending at the government's discretion, totaled \$3,355,221. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to pay debt service (\$438,951), 2) for capital projects (\$4,330,395), 3) for prepaid expenditures (\$17,780), 4) invested in inventory (\$68,742), and 5) for special revenue fund expenditures (\$220,217) .

The general fund is the chief operating fund of the City of La Marque. At the end of the current fiscal year, *unreserved fund balance* amounted to \$2,624,739 , while total fund balance amounted to \$2,712,292. As a measure of the general fund's liquidity, it may be useful to compare both fund balance reserved for future expenditures and total fund balance, to total fund expenditures. Unreserved fund balance represents 26 percent of total general fund expenditures, while total fund balance represents 27 percent of that same amount.

The fund balance of the City of La Marque's general fund increased by \$370,615 during the current fiscal year. Key factors in this growth are as follows:

- Intergovernmental revenue increased \$1,265,661 attributable to FEMA grant reimbursements in the amount of \$1,331,925 for damages sustained from Hurricane Ike.
- An increase in public safety expenditures of \$650,157 was due in part (\$296,966) to overtime costs for police and firefighters in the aftermath of Hurricane Ike.

The capital projects fund ended the year with a fund balance of \$4,330,395, a decrease of \$260,915. This decrease is due to capital projects expenditures in excess of investment earnings.

The debt service fund has a total fund balance of \$438,951 , all of which is reserved for debt service. The net increase in fund balance during the current year in the debt service fund was \$37,994.

Proprietary Funds. The City of La Marque's proprietary funds provide the same type of information found in the government-wide financial statements, but in greater detail.

Unrestricted net assets of the Utility Fund at the end of the year totaled \$3,048,130 and total net assets were \$10,107,054. The Water and Sewer System Revenue Fund net assets totaled \$708,497 and the Community Development Block Grant Fund ended the year with \$0 in net assets. The total change in net assets for these funds was a decrease of \$652,734, an increase of \$174,907, and a decrease of \$349,409, respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of La Marque's business-type activities.

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget resulted in an overall increase in appropriations of \$42,142 summarized as follows:

- \$4,742 in decreases allocated to general government
- \$51,789 in increases allocated to public safety
- \$988 in decreases allocated to public works
- \$3,917 in decreases allocated to capital outlay

This increase was to be funded as follows:

- Intergovernmental revenue increase \$3,810
- Fines and forfeitures increase of \$4,032
- Other revenue of \$18,000
- Fund balance reserves of \$16,300

During the year, however, revenues were more than budgetary estimates as explained below.

The general fund had a positive revenue variance of final budget to actual of \$1,090,689 due to FEMA grant reimbursements of \$1,331,925 for Hurricane Ike damages.

Negative variances of \$84,857 for general government were attributed to contingency items.

Public safety also experienced negative variances from budget to actual of \$420,819 due to personnel costs for police and firefighters incurred after Hurricane Ike.

Public works had negative variances from budget to actual of \$170,241 due to unanticipated expenditures for streets and highways. In addition, unanticipated capital outlay of \$67,928 resulted in a negative variance.

Sanitation experienced a negative variance of \$67,448.

Capital Assets and Debt Administration

Capital Assets. The City of La Marque's investment in capital assets for its governmental and business type activities as of September 30, 2008, amounts to \$28,190,524 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, vehicles, machinery and equipment, furniture and office equipment and construction in progress. The total decrease in the City of La Marque's investment in capital assets for the current fiscal year was 5.2 percent.

Major capital assets acquired during the current fiscal year included the following:

- Construction continued on the sanitary sewer rehabilitation manhole projects and various drainage improvements; construction in progress as of the close of the fiscal year totaled \$530,027.
- Electronic equipment was purchased at a cost of \$93,018.
- Police cars were purchased at a cost of \$81,141.

Additional information on the City of La Marque's capital assets can be found in note IV.D of this report.

Long-term Debt. At the end of the current fiscal year, the City of La Marque had total bonded debt outstanding of \$15,745,000. Of this amount, \$6,910,000 comprises debt backed by the full faith and credit of the government. The remainder of the City of La Marque's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

City of La Marque's Outstanding Debt
Certificates of Obligation and Revenue Bonds

	Governmental Activities		Business-type Activities		Total	
	2008	2007	2008	2007	2008	2007
Certificates of obligation	\$ 6,910,000	\$ 7,055,000			\$ 6,910,000	\$ 7,055,000
Revenue bonds and long-term contracts			8,835,000	9,390,000	8,835,000	9,390,000
	<u>\$ 6,910,000</u>	<u>\$ 7,055,000</u>	<u>\$ 8,835,000</u>	<u>\$ 9,390,000</u>	<u>\$ 15,745,000</u>	<u>\$ 16,445,000</u>

The City of La Marque's total debt decreased by \$700,000 (4.3 percent) during the current fiscal year due to principal payments made on existing debt.

Although there is no legal debt limit in Texas, most municipal finance officers in the state hold the opinion that the Attorney General would not approve bonded indebtedness in excess of 10% of assessed value. The current debt limitation for the City of La Marque is \$72,749,055, which is significantly in excess of the City of La Marque's outstanding debt.

Additional information on the City of La Marque's long-term debt can be found in note IV.G of this report.

CITY OF LA MARQUE, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS

Economic Factors and Next Year's Budgets and Rates

- During the 2007/2008 fiscal year, the City of La Marque permitted 95 new homes and 2 commercial/industrial buildings. There are currently 400-500 residential lots that are ready to be developed.
- The unemployment rate for the City of La Marque remained at 9.8 percent. This is still significantly higher than the state's average unemployment rate of 6.7 percent and the national average rate of 8.5 percent.
- Property tax collections for the governmental funds increased 7.7% in the current fiscal year.
- The La Marque Clean City Commission continues an aggressive campaign utilizing individuals sentenced to community service by the City's municipal court to perform revitalization projects throughout the City. Community service tasks such as painting City facilities and targeted litter pick-up have already been accomplished during the year, with numerous other projects planned for next year.
- La Marque Economic Development Corporation will be researching various ways to re-develop certain areas within the City that are currently under-utilized or under-productive.

These factors were considered in preparing the City of La Marque's budget for the 2009 fiscal year.

The City of La Marque's tax rate for the 2009 fiscal year budget was maintained at the 2008 rate of \$.51436 per \$100 assessed value.

CITY OF LA MARQUE, TEXAS
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF NET ASSETS
September 30, 2008

Exhibit B-2

Total fund balances - Governmental funds		\$ 8,431,306
1 The City uses internal service funds to charge the costs of certain activities, such as equipment maintenance insurance to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. The net effect of this consolidation is to increase net assets.		1,377,852
2 Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the Fund Financial Statements, but are reported in the governmental activities of the Statement of Net Assets.		
Capital assets	\$ 28,958,827	
Accumulated depreciation	(16,600,921)	
	<u>\$ 12,357,906</u>	12,357,906
3 Long-term liabilities are not due and payable in the current period and are not included in the Fund Financial Statements, but are included in the governmental activities of the Statement of Net Assets.		
General obligation bonds, certificates of obligation, etc.	\$ (6,910,000)	
Supplemental annuities payable	(105,417)	
Compensated absences payable	(1,046,298)	
	<u>\$ (8,061,715)</u>	(8,061,715)
4 Accrued interest on debt in excess of the amount recorded in the debt service fund		(23,497)
5 Deferred revenues recorded as revenue in the Statement of Net Assets		354,115
6 Unamortized bond issuance costs, premiums and losses on refunding bonds, in the Statement of Net Assets not in the Fund Financial Statements		<u>106,442</u>
Net assets of governmental activities		<u>\$ 14,542,409</u>

The notes to the financial statements are an integral part of this audit.

Fund balances - October 1 (Beginning)	2,341,677	4,591,310	1,194,988	8,127,975
Prior period adjustment			26,507	26,507
Fund balances - Beginning (As restated)	2,341,677	4,591,310	1,221,495	8,154,482
Fund balances - September 30 (Ending)	\$ 2,712,292	\$ 4,330,395	\$ 1,388,619	\$ 8,431,306

The notes to the financial statements are an integral part of this audit.

CITY OF LA MARQUE, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
September 30, 2008

Exhibit B-4

Total net change in fund balances - Governmental funds		\$ 276,824
1 The City uses internal service funds to charge the costs of certain activities, such as equipment maintenance insurance to appropriate functions in other funds. The income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to decrease net assets.		71,243
2 Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the statement of activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation.		
Capital outlays moved to capital asset additions	\$ 647,368	
Depreciation expense recorded for the year	<u>(860,171)</u>	
Net adjustment to increase (decrease) in governmental fund balances to arrive at the change in net assets for governmental activities	<u><u>\$ (212,803)</u></u>	(212,803)
3 Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.		
Property taxes net adjustment to the accrual basis		(5,509)
4 Governmental funds report the repayment of principal on long-term debt as an expenditure. In contrast, the Statement of Activities treats such repayments as reductions in long-term liabilities.		
Principal payments on long-term debt (General Obligation Bonds, Certificates of Obligation, etc.)	\$ 145,683	
Payment of supplemental annuities for retirees	<u>29,682</u>	
	<u><u>\$ 175,365</u></u>	175,365
5 Some expenses reported in the Statement of Activities do not require the use of current financial resources and are therefore not reported as expenditures in the Fund Financial Statements:		
Book value of disposed assets		(251,765)
Change in accrued interest payable		2,375
Change in compensated absences payable		(109,568)
Amortization of issuance costs, premiums and refunding losses not recorded in the Fund Financial Statements but recorded in the Statement of Activities		<u>(4,922)</u>
Change in net assets of governmental activities		<u><u>\$ (58,760)</u></u>

The notes to the financial statements are an integral part of this audit.

I. Summary of significant accounting policies

The City of La Marque (the “City”) is a municipality operating under the applicable laws and regulations of the State of Texas. The City prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB), other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants, and the requirements of contracts and grants of agencies from which it receives funds.

In accordance with Governmental Accounting Standards Board Statement No. 34, the City retroactively reported its general infrastructure assets during the year ended September 30, 2007.

A. Reporting entity

Primary Government

The City of La Marque, Texas was incorporated under the provisions of the Home Rule City Act and is governed by an elected mayor and four-member city council. The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the City.

Discretely Presented Component Unit

The La Marque Economic Development Corporation was established to promote economic and industrial expansion within the City’s jurisdiction. The members of the Corporation’s governing board as well as its operational and capital budgets are approved by City Council. The Corporation has both governmental and proprietary fund types.

Complete financial statements for the component unit may be obtained at the entity’s administrative offices.

La Marque Economic Development Corporation
1111 Bayou Road
La Marque, Texas 77568-4299

I. Summary of significant accounting policies (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component unit. Except for interfund services provided and used which are not eliminated in the process of consolidation, the effect of other interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

I. Summary of significant accounting policies (Continued)

The City reports the following major governmental funds:

The *general fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects* fund is the City's capital projects fund into which the Certificates of Obligation are deposited. Street and drainage improvements will be accounted for in this fund.

During the year, the Community Development Block Grant fund was changed from a governmental fund to an enterprise fund.

The City reports the following major proprietary funds:

The *utility fund* accounts for the rendering of water and sewer services to the residents of the City.

The *waterworks and sewer system revenue fund* accounts for the proceeds of the sale of bonds for the purpose of improving and extending the City's waterworks and sanitary sewer system.

The *community development block grant* fund (formerly a governmental fund) accounts for grant proceeds used to construct and rehabilitate sewer lines in low to very-low income neighborhoods.

Additionally, the City reports the following fund types:

Internal service funds account for equipment replacement costs and equipment maintenance insurance costs as needed by City departments on a cost reimbursement basis.

The *private-purpose trust funds* are used to account for (1) contributions legally held in trust for the purchase of library books.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, except for interfund services provided and used which are not eliminated in the process of consolidation, the effect of other interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers for goods or services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Utility enterprise fund and of the Waterworks and Sewer System Revenue enterprise fund, and of the City's internal service funds are charges to customers for sales and services. The Utility Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Summary of significant accounting policies (Continued)

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investment pools, mutual funds and money market accounts are not considered cash equivalents.

State statutes authorize the City to invest in 1) obligations of the U.S. or its agencies and instrumentalities; 2) obligations of the State of Texas or its agencies; 3) other obligations guaranteed by the U.S. or the State of Texas or their agencies and instrumentalities; 4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent; 5) guaranteed or secured certificates of deposit issued by state or national banks domiciled in Texas; 6) fully collateralized repurchase agreements; and 7) a public funds investment pool meeting the requirement of Government Code 2256.016 – 2256.019. Temporary investments are reported at fair value.

The City's investment policies and types of investments are governed by the Public Funds Investment Act (PFIA). The City did not fully comply with the requirements of the PFIA and the City's investment policies as the City's investment in Local Government Investment Pools exceeded the maximum allowed by the City's investment policy.

The La Marque Economic Development Corporation's investment policies and types of investments are governed by the Public Funds Investment Act (PFIA). The Corporation utilizes the City's investment policies and Investment Officer in lieu of separately managing its investments.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." All customer and property tax receivables, including those for LMEDC, are shown net of an allowance for uncollectibles. Customer accounts receivable in excess of 120 days primarily comprise the customer accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 4 percent of outstanding property taxes at September 30, 2008.

The property tax calendar is as follows:

Property tax levy on assessed values, which approximate 100% of market value, occurs on October 1.

Taxes are due October 1, immediately following the levy date and are delinquent February 1 of the following year.

Property taxes attach as an enforceable lien on property as of January 1.

I. Summary of significant accounting policies (Continued)

3. Inventories and Prepaid Items

Inventories are valued at cost. The General Fund inventory consists of consumable vehicle replacement parts. The consumption method of accounting is used for the governmental fund types whereby supplies are recorded as expenditures when they are consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

For the LMEDC, inventory consists of land purchases made for sale to encourage future development.

4. Restricted Assets

Primary Government

Governmental activities restricted assets include revenue specified for economic development, urban rehabilitation and housing, debt service, various grant programs, and capital projects.

Certain proceeds of the Utility enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The Water and Sewer System Revenue is used to report those proceeds of revenue bond issuances that are restricted for use in construction. The Water and Sewer System Interest and Sinking fund is used to segregate resources accumulated for debt service payments.

Restricted for	Amount
Governmental Activities:	
Hotel / Motel Occupancy Tax	\$ 727,275
Section 8	109,236
Drug Seizure	9,167
Home Grant	38,245
Public Improvement District	103,378
Parks	48,629
Court Technology	29,880
Court Security	31,079
Child Safety	17,922
LEOSE Training	4,524
Motco Landscaping	11,064
Clean City	967
Debt Service	502,805
Capital Projects	4,337,354
Total Governmental Activities	5,971,525
Business-type Activities:	
Utility	811,623
Water and Sewer Revenue	250,000
Total Business-type Activities	1,061,623
Total	\$ 7,033,148

I. Summary of significant accounting policies (Continued)

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 for furniture and equipment and \$25,000 for buildings, improvements and infrastructure and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense incurred by the Water and Sewer System Revenue fund during the current fiscal year was \$123,718. None of this amount was included as part of the cost of capital assets under construction in connection with water and wastewater treatment facilities construction projects.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and improvements	40
Heavy equipment	20
Light equipment - Normal use	7 - 10
Light equipment - Frequent use	5
Vehicles	10
Office furniture and equipment	7
Computer equipment	5

General infrastructure assets are defined by *Governmental Accounting Standards Board* Statement No. 34 as “long-lived assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets” and include the following:

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Roads 2. Bridges 3. Tunnels 4. Drainage systems | <ol style="list-style-type: none"> 5. Water and sewer systems 6. Dams 7. Lighting systems |
|---|--|

I. Summary of significant accounting policies (Continued)

6. Compensated Absences

City employees earn vacation and sick leave benefits, which may be taken or accumulated within established limits until paid upon retirement, termination or death. These limits vary for City fire fighters and police officers, as their collective bargaining agreements supersede City policies.

Accumulated vacation is limited to a maximum of two years credit for all city employees, including fire fighters and police officers. Accumulated sick leave is limited to 1,040 hours for City employees, 1,378 hours for fire fighters, and is not limited for police officers. A City employee who resigns or terminates employment will be paid at the employee's regular pay scale not to exceed one month's pay. All City employees that retire from employment will be paid a lump sum of all accumulated sick leave within established limits. Fire Fighters who leave employment will be paid up to 230 hours of accumulated sick leave. Police officers who leave employment with the City for any reason other than a "just cause" termination will be paid up to 720 hours of accumulated sick leave.

The liability for compensated absences amounted to \$1,046,298 for governmental activities and \$131,648 for business-type activities as of September 30, 2008.

The La Marque Economic Development Corporation employs, through a contract with the City, a manager that functions as the Administrator of the Corporation. The manager's compensated absences are accounted for by the City rather than the Corporation, so the Corporation does not incur an expense or liability associated with the manager's compensated absences.

7. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

9. Statement of Cash Flows

In accordance with *Governmental Accounting Standards Board* Statement No. 34, a Statement of Cash Flows is required as part of a full set of financial statements for all Proprietary Funds. For purposes of the Statement of Cash Flows, the Proprietary Funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents. Investment pools, mutual funds and money market accounts are not considered cash equivalents.

I. Summary of significant accounting policies (Continued)

10. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

II. Reconciliation of Government-wide and Fund Financial Statements

A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

Exhibit B-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net assets for governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. Also, property taxes receivable, net of the allowance for uncollectible taxes, which are deferred in the fund financial statements are reported as revenue in the government-wide financial statements.

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

Exhibit B-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net assets of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net asset balance and the change in net assets. The debt payments on retirement of debt are recorded as expenditures for fund basis financial statements but are a reduction of debt in the government-wide financial statements.

The capital asset additions are expenditures in the fund basis financial statements but are capitalized on the government-wide financial statements. The fund basis statements do not include depreciation expense and is therefore a deduction to reconcile to the government-wide statement of activities. New debt issues are considered sources of revenue for fund basis financial statements and increases in liabilities for government-wide financial statements. Property taxes receivable are deferred in the fund basis financial statements, as they are not considered available. Property taxes are recorded as revenue when levied in the government-wide financial statements.

III. Stewardship, compliance, and accountability

A. Budgetary information

Purpose of Budget

The budget is required by City Charter and is used to plan, monitor, and control the use of resources. The budget then:

1. Identifies resources and funds to provide for the delivery of services.
2. Appropriates funds for the level of service to be provided.
3. Provides the basis for recording and controlling revenues and expenditures.

Budget Process

The budget process is a systematic approach to providing reasonable estimates of revenues and expenditures for a certain level of activity. These revenue and expenditure estimates are based on past, current, and future anticipated activity. The information is accumulated and proceeds from the departments to the City Manager, the City Council, and the public. Therefore, budget preparation is an opportunity to review each activity and present a realistic, adequately documented budget to provide those services in a low-cost, efficient manner.

The City follows these procedures, which comply with legal requirements, in establishing the budgetary data reflected in the financial statements:

1. The general fund, the Hotel/Motel Room Occupancy Tax special revenue fund, the Debt Service fund, and the enterprise funds have legally adopted annual budgets. The City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. The budget is legally enacted through passage of a resolution.
4. The City Manager is authorized to transfer budget amounts within and between departments; however, any revisions that alter the total expenditures of any category (general government, public safety, etc.) must be approved by the City Council.
5. Budgets for the general fund, the Hotel/Motel Room Occupancy Tax and Section 8 special revenue funds, the Debt Service fund, and the enterprise funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. All budgeted appropriations lapse at year end.

Budget amounts are as originally adopted or as amended by the City Council. Expenditures may not exceed appropriations on a functional level in the general fund, enterprise funds, Hotel/Motel Room Occupancy Tax special revenue fund, and the Debt Service fund. All budget amendments are brought to City Council.

Two budget amendments in the form of Resolution #1069 and Resolution #1077 were approved by City Council during the fiscal year ended September 30, 2008.

III. Stewardship, compliance, and accountability (Continued)

Expenditures exceeded appropriations in the general fund as follows:

<i>General fund:</i>	
General government	\$ 84,857
Public safety	420,819
Public works	170,241
Sanitation	67,448
Capital outlay	10,775
	<u>\$ 754,140</u>
 <i>Debt service fund:</i>	
Principal on long-term debt	\$ 2,538
	<u>\$ 2,538</u>

Charter Requirements

1. **Overview** - Section 6.02; "Preparation and submission of budget" of Article VI. The budget as taken from the charter of the City of La Marque, Texas states in part:

"The City Manager shall submit to the City Council a budget. For such purpose, he shall obtain from the head of each office or department estimates of revenue and expenditure of that office or department, detailed by character and object of expenditure and such other supporting data as he may request; together with an estimate of all capital projects pending or which such department head believes should be undertaken (a) within the budget year and (b) within the five next succeeding years. In preparing the budget, the City Manager shall review the estimates and may revise the estimates, as he may deem advisable."

2. **Excerpts** - from other sections of Article VI.
 - 6.13 - It shall set forth the reasons for salient changes from the previous year in cost and revenue items and shall explain any major changes in financial policy.
 - 6.15 - The City Manager shall also include a capital program of proposed capital projects for the next five fiscal years.
 - 6.16 - Attached shall be such supporting schedules, exhibits, and other explanatory material as the City Manager shall believe useful.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year. As of September 30, 2008, there were no outstanding encumbrances in the General Fund.

IV. Detailed Notes on all Funds

A. Deposits and investments

City Policies and Legal and Contractual Provisions Governing Deposits

The funds of the City must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the City's agent bank in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At September 30, 2008, the carrying amount of the City's deposits, (cash and interest-bearing savings accounts) was \$941,744 and the bank balance was \$870,204.

Custodial Credit Risk

The City's deposits are subject to custodial credit risk as \$570,204 of total deposits are uninsured and are secured by securities held by the pledging financial institutions agent in the City's name. The City's deposits were fully collateralized at year-end and throughout the year.

Cash and cash equivalents as of September 30, 2008 were as follows:

	<u>Cash on Hand</u>	<u>Equity in Pooled Cash</u>	<u>Other Deposits</u>	<u>Total</u>
Primary government				
Governmental activities:				
General fund	\$ 5,900	\$ (6,280)	\$ 380	\$ 17,488

IV. Detailed notes on all funds (Continued)

Compliance with the Public Funds Investment Act

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The City of La Marque is not in substantial compliance with the requirements of the Act and with local policies.

The following table includes portfolio balance, the weighted average maturity, and the percentage of the portfolio balance by investment type held by the City as of September 30, 2008:

	<u>Fair Value</u>	<u>Percentage of Investments</u>	<u>Weighted Average Maturity (Days)</u>

Additional policies and contractual provisions governing deposits and investments for The City of La Marque are specified below:

Interest Rate Risk

The City has an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate changes.

Credit Risk

State law limits investments in commercial paper, corporate bonds, and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. The City has a formal investment policy that further limits its investment choices. As of September 30, 2008, the City's investment in TexPool was rated AAAM by Standard and Poors. The City's investment in Logic was rated AAAM by Standard and Poors. The City's investment in DWS was rated AAAM by Standard and Poor's.

Concentration of Credit Risk

Although there is no credit risk associated with the investments currently held, the City has a formal investment policy that places limits on the amount the City may invest in any one issuer. The following is a recap of City investments by type with maximum percentages per the formal investment policy.

	<u>Fair Value</u>	<u>Maximum</u>	<u>Percent Invested</u>
Certificates of deposit	\$ 698,449	100.0%	5.1%
Local government investment pools	11,595,987	70.0%	85.5%
Money market accounts	352,274	50.0%	2.6%
Mutual funds	918,547	30.0%	<u>6.8%</u>
	<u>\$ 13,565,257</u>		<u>100.0%</u>

IV. Detailed notes on all funds (Continued)

Custodial Credit Risk for Investments

To limit the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of investment or collateral securities that are in possession of an outside party. The City does not have a formal policy for investment custodial risk. Of the total \$10,980,320 invested by the City, \$428,449 is exposed to custodial credit risk. The entire amount exposed was held in the City's name by the counterparty.

Adjustment to Investment Fair Values

The City's portfolio fluctuates in an inverse relationship to any change in interest rates. Accordingly, if interest rates have risen, the portfolio value will have declined. If interest rates have fallen, the portfolio value will have risen. Investments are reported by the City at fair value in accordance with Governmental Accounting Standards. The city had no gains or losses from the sale of investments. Changes in market values of investments are included in investment earnings as follows:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>	<u>Total</u>
Interest income	\$ 295,480	\$ 110,753	\$ 406,233
Total Investment Earnings	<u>\$ 295,480</u>	<u>\$ 110,753</u>	<u>\$ 406,233</u>

DWS Institutional Shares

DWS Institutional Shares ("DWS") is an SEC registered money market mutual fund rated AAAM by Standard & Poors. The portfolio consists exclusively of U.S. Treasury bills, notes, bonds and other obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities and related repurchase agreements. The portfolio also may consist of investments in repurchase agreements collateralized by U.S. Treasury and Agency Securities.

To maintain its money market fund status, the DWS fund seeks to maintain a stable \$1.00 share price and follows the following rules:

- individual securities must have remaining maturities of no more than 397 days and be denominated in U.S. dollars,
- the dollar-weighted average maturity of the portfolio's holdings cannot exceed 90 days, and
- all securities must be in the top two credit grades for short-term debt securities.

The fair value of DWS investments are based on quoted market values of underlying investments of the pool.

DWS is a money market mutual fund. The investments are reported by the City at amortized cost in accordance with the 90-day exception rule of GASB 31. No unrealized gains are reported in the financial statements under the 90-day exception in GASB 31 to reporting unrealized gains/losses.

The investment in DWS and any accrued interest may be redeemed at the City's discretion.

IV. Detailed notes on all funds (Continued)

Tex Pool

The fair value of TexPool investments is based on quoted market values of underlying investments of the pool. TexPool is an investment service authorized by the Texas Legislature and administered by the State Comptroller. The investments are reported by the City at amortized cost in accordance with the 90-day exception rule of GASB 31. All gains/losses are reported in the financial statements for realized gains/losses. No unrealized gains are reported in the financial statements under the 90-day exception in GASB 31 to reporting unrealized gains/losses.

The purpose of Texpool is to allow for the pooling of public funds to provide a higher yield on the pooled investment than would be possible with the investment of the individual public entity's funds. These investments are subject to the same safety investment instruments for public funds, including repurchase agreements, U.S. Treasury bills and bonds, securities of other U.S. government agencies, commercial paper and other safe instruments.

The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAAM by Standard & Poors. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poors, as well as the office of the Comptroller of Public Accounts for review.

TexPool operates in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940 in order to ensure a more conservative investment strategy and to provide a much higher level of investment safety for local government funds.

TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares. The investment in TexPool and any accrued interest may be redeemed at the City's discretion.

Logic

LOGIC, Local Government Investment Cooperative is an investment program for local governments within the State of Texas. Investments are subject to the strict requirements of the Public Funds Investment Act and LOGIC may invest in any of the securities authorized by statute. The pool must demonstrate compliance with Chapter 2256, Sections .016, .017, .018 and .019. The fair value of LOGIC investment is based on quoted market values of underlying investments of the pool. The investments are reported by the City at amortized cost in accordance with the 90-day exception rule of GASB 31. All gains/losses are reported in the financial statements for realized gains/losses. No unrealized gains are reported in the financial statements under the 90-day exception in GASB 31 to reporting unrealized gains/losses. The fair value of the position in LOGIC is the same as the value of the pool shares. Logic is rated AAAM by Standard & Poors.

IV. Detailed notes on all funds (Continued)

B. Property Taxes

Property taxes are levied by October 1st in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1st of the year following the year in which imposed. On January 1st of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Appraised values are established by the Central Appraisal District (CAD) of Galveston County, Texas. Taxes are levied by City Council based on the appraised values received from Galveston Central Appraisal District. Billing and collection of tax levies are performed by the Galveston County Tax Assessor/Collector.

Property tax rates, established in accordance with state law, are levied on real and personal property within the City's boundaries for use in financing general government and debt service expenditures. Tax rates levied to finance general government and debt service expenditures for the fiscal year were \$0.43387 and \$0.08049, respectively, based on an assessed property valuation of approximately \$596 million resulting in an adjusted tax levy of approximately \$3.6 million. Allowances for uncollectible taxes are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Governmental funds net property taxes receivable at September 30, 2008 consisted of the following:

	General	Debt Service	Total
Delinquent taxes:			
Current year levy	\$ 118,650	\$ 25,452	\$ 144,102
Prior year levy	<u>366,353</u>	<u>89,872</u>	<u>456,225</u>
Total delinquent taxes	<u>485,003</u>	<u>115,324</u>	<u>600,327</u>
Penalties and interest on taxes	<u>325,264</u>	<u>86,991</u>	<u>412,255</u>
Total taxes, penalties and interest	<u>810,267</u>	<u>202,315</u>	<u>1,012,582</u>
Less allowance for uncollectible taxes	<u>(377,037)</u>	<u>(109,830)</u>	<u>(486,867)</u>
Net property taxes receivable	<u>\$ 433,230</u>	<u>\$ 92,485</u>	<u>\$ 525,715</u>

IV. Detailed Notes on all Funds (Continued)

C. Customer Receivables

Customer receivables consist of amounts billed to the residents of the City for refuse collection, water and sewer service, and emergency transports. Amounts receivable are reported net of an allowance for uncollectible receivables which is based upon historical collection experience.

Customer receivables at September 30, 2008 consisted of the following:

	Governmental Activities	Business-type Activities	Total
Refuse, water and sewer receivables			
Refuse	\$ 353,543	\$	\$ 353,543
Water and sewer		945,589	945,589

Water and sewer system revenue	160,825
Total Business-type activities:	<u>1,211,576</u>
 Total	 <u>\$ 2,071,747</u>

IV. Detailed Notes on all Funds (Continued)

Construction Commitments

The City has active construction projects as of September 30, 2008. The projects include sanitary sewer rehabilitation in various areas of the City and various street improvements. At year end, the City's commitments with contractors are as follows:

<u>Project</u>	<u>Approved Construction in Budget</u>	<u>Construction in Progress</u>	<u>Estimated Remaining Commitment</u>
Sanitary sewer rehab projects	\$ 233,294	\$ 233,294	\$
Street improvements	585,172	228,805	356,367
Purchase & remodel of public works building	200,000	67,928	132,072
	<u>\$ 1,018,466</u>	<u>\$ 530,027</u>	<u>\$ 488,439</u>

E. Interfund Receivables, Payables, and Transfers

Interfund receivables and payables are utilized as an offset to a fund's deficit cash with another fund's positive cash. The composition of interfund balances as of September 30, 2008, is as follows:

	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>	<u>Net</u>
Primary government			
Governmental activities:			
General fund	\$	\$ (644,882)	\$ (644,882)
Capital Projects			
Nonmajor governmental funds	107,272		107,272
Nonmajor internal service funds	219,341		219,341
Total governmental activities	<u>326,613</u>	<u>(644,882)</u>	<u>(318,269)</u>
Business-type activities:			
Utility fund	318,269		318,269
Water and Sewer Revenue fund			
Community Development Block Grant			
Total business-type activities	<u>318,269</u>	<u></u>	<u>318,269</u>
Total primary government	<u>\$ 644,882</u>	<u>\$ (644,882)</u>	<u>\$</u>
Discretely presented component unit			
Governmental activities:			
General fund	\$ 933,904	\$	\$ 933,904
Business-type activities:			
Enterprise fund		(933,904)	(933,904)
Total discretely presented component unit	<u>\$ 933,904</u>	<u>\$ (933,904)</u>	<u>\$</u>

IV. Detailed Notes on all Funds (Continued)

The principal purpose of interfund transfers is to fund the equipment replacement and equipment maintenance insurance funds and to cover the cost of equipment purchased in the general fund.

	<u>Transfers In</u>	<u>Transfers Out</u>	<u>Net</u>
Primary government			
Governmental activities:			
General fund	\$ 228,911	\$ (146,347)	\$ 82,564
Nonmajor governmental funds	120,347	(28,277)	92,070
Nonmajor internal service funds	26,690	(98,434)	(71,744)
Total governmental activities	<u>375,948</u>	<u>(273,058)</u>	<u>102,890</u>
Business-type activities:			
Utility fund	297,601	(861,368)	(563,767)
CDBG		(418,585)	(418,585)
Water and Sewer Revenue fund	460,877		460,877
Total business-type activities	<u>758,478</u>	<u>(1,279,953)</u>	<u>(521,475)</u>
Total primary government	<u>\$ 1,134,426</u>	<u>\$ (1,553,011)</u>	<u>\$ (418,585) *</u>

*The net amount of interfund transfers, \$ (418,585) is a result of the transfer of a capital contribution from the CDBG fund to the Utility Fund.

F. Leases

Operating Leases

Commitments under operating (noncapitalized) lease agreements for facilities and equipment are classified as State of Texas Rental Contracts and are cancelable contingent upon budget funding approval. The City is therefore not obligated for any future minimum rental payments at September 30, 2008.

The imputed interest on the leases is not readily determinable.

Rental expenditures during the year ended September 30, 2008 were \$ 55,094.

IV. Detailed Notes on all Funds (Continued)

G. Long-term Debt

1. Changes in Long-term Liabilities

Long-term liability activity for the year ended September 30, 2008, was as follows:

	<u>Balance October 1, 2007</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance September 30, 2008</u>	<u>Due Within One Year</u>
Primary government					
Governmental activities:					
Certificates of obligation	\$ 7,055,000	\$	\$ (145,000)	\$ 6,910,000	\$ 200,000
Compensated absences	936,730	545,208	(435,640)	1,046,298	400,169
Supplemental annuities	135,782		(30,365)	105,417	25,349
Total governmental activities	<u>8,127,512</u>	<u>545,208</u>	<u>(611,005)</u>	<u>8,061,715</u>	<u>625,518</u>
Business-type activities					
Bonds and contracts payable:					
Revenue bonds	6,570,000		(515,000)	6,055,000	535,000
Long-term contracts	2,820,000		(40,000)	2,780,000	145,000
Total bonds and contracts payable	<u>9,390,000</u>		<u>(555,000)</u>	<u>8,835,000</u>	<u>680,000</u>
Compensated absences	123,011	82,978	(74,340)	131,648	54,791
Total business-type activities	<u>9,513,011</u>	<u>82,978</u>	<u>(629,340)</u>	<u>8,966,648</u>	<u>734,791</u>
Total primary government	<u>\$ 17,640,523</u>	<u>\$ 628,186</u>	<u>\$ (1,240,345)</u>	<u>\$ 17,028,363</u>	<u>\$ 1,360,309</u>

For the governmental activities, compensated absences are generally liquidated by the general fund.

2. Certificates of Obligation

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities and major equipment. Certificates of obligation have been issued for governmental activities. The original amount of certificates of obligation issued in prior years was \$8,165,000. During the year, no certificates of obligation were issued.

Certificates of obligation are direct obligations and pledge the full faith and credit of the City. These certificates were issued as 25-year, 22-year and 15-year certificates with various amounts of principal maturing each year.

IV. Detailed notes on all funds (Continued)

Certificates of obligations outstanding at year-end are as follows:

<u>Issue</u>	<u>Original Issuance Amount</u>	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Debt Outstanding</u>
Certificates of obligation - Series 2005	3,490,000	4.00% to 5.00%	2029	3,210,000
Certificates of obligation - Series 2007	3,750,000	4.50% to 4.75%	2029	<u>3,700,000</u>
	Total certificates of obligation payable			6,910,000
	Less current portion			(200,000)
	Long-term portion			<u>\$ 6,710,000</u>

Annual debt service requirements to maturity for certificates of obligation are as follows:

<u>Year Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2009	\$ 200,000	\$ 293,306	\$ 493,306
2010	210,000	283,569	493,569
2011	220,000	273,356	493,356
2012	230,000	262,656	492,656
2013	240,000	251,469	491,469
2014	250,000	240,944	490,944

	<u>6,910,000</u>	<u>\$ 3,655,400</u>	<u>\$ 10,565,400</u>
	(200,000)	Less Current Portion	
	<u>\$ 6,710,000</u>	Long-term portion	

IV. Detailed notes on all funds (Continued)

3. Revenue Bonds and other Long-term Debt

The City also issues bonds for which the City pledges income derived from the acquired or constructed assets to pay debt service. Revenue bonds have been issued for business -type activities. The original amount of revenue bonds issued in prior years was \$9,040,000. During the year, no revenue bonds were issued.

The City has also entered into contracts for which the City pledges sufficient sums to retire the water contract revenue bonds of the Gulf Coast Water Authority. These contracts are for business-type activities. The original amount of contracts entered into in prior years was \$3,040,000. During the year, the City entered into no new contracts.

Primary Government

Revenue bonds and other long-term debt outstanding at year-end are as follows:

<u>Issue</u>	<u>Original Issuance Amount</u>	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Debt Outstanding</u>
Revenue bonds:				
Revenue bonds - Series 1996	\$ 4,440,000	3.00% to 4.55%	2016	\$ 2,695,000
Revenue bonds - Series 1998	\$ 4,600,000	2.50% to 3.65%	2018	3,360,000
	Total revenue bonds payable			6,055,000
		Less current portion		(535,000)
	Long-term portion			\$ 5,520,000
Long-term contracts:				
Water system contract refunding bonds - Series 1998-D	\$ 3,040,000	4.15% to 5.00%	2018	\$ 2,780,000
	Total long-term contracts payable			2,780,000
		Less current portion		(145,000)
	Long-term portion			\$ 2,635,000

IV. Detailed notes on all funds (Continued)

Revenue bond and long-term contracts debt service requirements to maturity are as follows:

<u>Year Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2009	\$ 680,000	\$ 374,188	\$ 1,054,188
2010	705,000	347,583	1,052,583
2011	730,000	319,398	1,049,398

	<u>8,835,000</u>	<u>\$ 2,486,276</u>	<u>\$ 11,321,276</u>
	(680,000)	Less Current Portion	
	<u>\$ 8,155,000</u>	Long-term portion	

4. Long-term contracts payable

Gulf Coast Water Authority

According to the contract between the City of La Marque and the Gulf Coast Water Authority (GCWA), the City agreed to provide sufficient sums to retire the water contract revenue bonds of the GCWA. In return, the proceeds of the contract revenue bonds have been used to finance the construction of a water transmission main from a water treatment plant located in the City of Texas City to the City of La Marque and upgrade the City of La Marque's water supply and distribution system. The improvements were necessary to convert the City of La Marque to a surface water supply. The project was completed in November, 1982.

On July 1, 1998, the City of La Marque entered into a long-term contract with the Gulf Coast Water Authority (GCWA), formerly Galveston County Water Authority, to build and improve facilities for potable water transportation to the City of La Marque. The GCWA is, a conservation and reclamation district created by Chapter 712, Acts of the 59th Texas Legislature, 1965, as amended (compiled as Article 8280-339, Vernon's Texas Civil Statutes, as amended). The GCWA issued bonds totaling \$3,040,000 in 1998 under the title "Gulf Coast Water Authority Water System Contract Revenue Bonds, Series 1998 D - City of La Marque Project". Under the contract, the City agreed to provide sufficient sums to retire the bonds.

Additionally, the City entered into a contract to purchase water from the Gulf Coast Water Authority which includes an agreement to provide funds to cover bonds obtained by the GCWA for waterline improvements within the corporate boundaries of the City. This commitment amounted to \$569,656 as of September 30, 2008 and will be paid as part of water purchases expense in the Utility fund.

IV. Detailed notes on all funds (Continued)

5. Restricted Net Assets for Revenue Bond Debt Service

Water Contract Refunding Bonds, Series 1998-D	\$ 336,366
Total revenue bond debt service reserve	<u>\$ 336,366</u>

As required by a city ordinance adopted on August 26, 1996, the City agreed to maintain reserve funds for Series 1996 and 1998 Water and Sewer Revenue Bonds, based upon the average debt requirements of \$361,975 and \$342,477, respectively. The City had a sixty-month period to accumulate the required reserves.

Once attained, the reserves were to remain level until the bonds were paid in full. However, on July 13, 1998 a new ordinance was passed which allowed the City to satisfy the Reserve Fund Requirements by obtaining Reserve Fund Surety Policies. A Reserve Fund Surety Policy was purchased on August 13, 1998 which allowed funded amounts in the Reserve Funds to be released for any of the purposes for which such funds may be lawfully applied. Therefore, no interest and sinking fund reserves are required.

Additionally, a restriction for Water Contract Revenue Bonds, Series 1998D, in the amount of \$336,366, has been recorded as of September 30, 2008.

H. Revaluation of Utility Plant

A surplus arising in the amount of \$959,359, from revaluation of the Utility Plant in service is based on an appraisal by Chas. R. Haile Associates, Inc., Consulting Engineers, as of April 1, 1959. This was prior to the dissolution of Galveston County W.C.I.D. #3, which was acquired by the City of La Marque. The surplus is included in invested in capital assets, net of related debt.

I. Designated Fund Balances - Self Insurance

Primary Government

Self-Insurance - A designation for self-insurance has been established in the General and Utility Funds to provide a designation of funds to cover the risk of loss for physical damage to vehicles. This designation is not, nor is it intended to be a traditional self-insurance program. It is rather a designation of funds established to meet deductibles under the City's commercial insurance coverage. The designation for all funds totaled \$47,500 at September 30, 2008.

Discretely presented component unit

Fund balance in the General Fund has been reserved in an amount equal to amounts due from the Mark 45 Business Park Fund.

IV. Detailed notes on all funds (Continued)

J. Budgeted Special Revenue Funds

The City legally adopts annual budgets for only one of the City's thirteen Special Revenue Funds - Hotel/Motel Room Occupancy Tax Fund. The Schedules of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual on page 92 present only this one fund.

	Final Budget	Actual	Variance Favorable (Unfavorable)
Budgeted special revenue funds

Prior period adjustment		26,507	26,507
Fund balance - Beginning (As restated)	<u>794,031</u>	<u>820,538</u>	<u>26,507</u>
Fund balance - September 30 (Ending)	<u>\$ 829,031</u>	<u>\$ 949,668</u>	<u>\$ 120,637</u>

IV. Detailed Notes on all Funds (Continued)

K. Deferred Revenue

Deferred revenue represents assets that are not available for use by the City to liquidate current year liabilities. Deferred revenue by fund as of September 30, 2008 follows:

	<u>General Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Community Development Block Grant</u>	<u>Total</u>
Net property taxes receivable	\$ 292,502	\$ 62,504	\$	\$ 355,006
Proceeds - Expenditure driven grants:				
Home grant		38,006		38,006
Other unearned revenue	1,136			1,136
Total	<u>\$ 293,638</u>	<u>\$ 100,510</u>	<u>\$</u>	<u>\$ 394,148</u>

A summary of unavailable and unearned deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
Governmental Activities:			
General fund	\$ 292,502	\$ 1,136	\$ 293,638
Nonmajor governmental funds	62,504	38,006	100,510
Total	<u>\$ 355,006</u>	<u>\$ 39,142</u>	<u>\$ 394,148</u>

IV. Detailed Notes on all Funds (Continued)

L. Deferred Charges

Costs related to obtaining revenue bonds and long-term contracts are capitalized and amortized over the term of the related debt using the straight-line method. Costs, accumulated amortization and amortization expense are as follows:

	Governmental Activities	Business-type Activities		
		Utility	Water and Sewer Revenue	Total
Deferred charges:				
Bond issue costs	\$ 117,797	\$ 251,710	\$ 136,374	\$ 388,084
Accumulated amortization	(11,355)	(137,255)	(69,608)	(206,863)
Bond issue costs, net of accumulated amortization	106,442	114,455	66,766	181,221
Premium received on bond issue		53,578		53,578
Accumulated amortization		(21,160)		(21,160)
Premium received on bond issue, net of accumulated amortization		32,418		32,418
Deferred charges, net of accumulated amortization	\$ 106,442	\$ 146,873	\$ 66,766	\$ 213,639
Current year amortization:				
Bond issue costs	\$ 4,922	\$ 13,822	\$ 6,819	\$ 20,641
Total current year amortization	\$ 4,922	\$ 13,822	\$ 6,819	\$ 20,641

When a bond or long-term contract is paid in full, any unamortized deferred costs are written off as current expenditures.

M. Prior Period Adjustment

During the year, Section 8 revenue was recorded as a liability in prior years. The result of this prior period adjustment is to increase net assets as follows:

	Governmental Activities
Beginning Net Assets - As Originally Presented	\$ 14,574,662
Restatements due to:	
Reclassify Section 8 revenue recorded as deferred revenue in prior year	26,507
Total adjustments to beginning net assets	26,507
Beginning net assets - As restated	\$ 14,601,169

V. Other Information

A. Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. Hurricane Ike made landfall in Galveston, Texas on September 13, 2008, causing hurricane force winds, storm surge and severe flooding throughout Galveston County. As a result, the City incurred emergency expenditures related to storm preparation, damage and the subsequent clean up of debris caused by the hurricane. It is Management’s opinion that insurance proceeds and federal grant revenues will be sufficient to cover the majority of the costs related to the damage caused by the hurricane.

In addition, a designation for self-insurance has been established in the General and Enterprise Funds to provide a reservation of funds to cover the risk of loss for physical damage to vehicles. This designation is not, nor is it intended to be a traditional self-insurance program. It is rather a designation of funds established to meet deductibles under the City's commercial insurance coverage. The Enterprise Fund designation is reported as unrestricted net assets.

	Designated for Self Insurance			
	General Fund	Enterprise Funds	September 30, 2008	September 30, 2007
Balance, October 1, 2007	\$ 40,000	\$ 7,500	\$ 47,500	\$ 47,500
Additions				
Reductions				
Balance, September 30, 2008	<u>\$ 40,000</u>	<u>\$ 7,500</u>	<u>\$ 47,500</u>	<u>\$ 47,500</u>

For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

B. Health care Coverage

During the year ended September 30, 2008, employees of the City of La Marque, Texas were covered by a health insurance plan. The City paid \$907,748 in annual premiums to the Plan. All premiums were paid to a licensed insurer. The policy is renewable on an annual basis.

C. Deferred Compensation Plan

The City offers its employees the opportunity to participate in a deferred compensation plan created in accordance with Internal Revenue Code Section 457. All assets and income of the plan are held in trust for the exclusive benefit of participants and their beneficiaries. The City provides neither administrative services nor investment advice for the plan. Accordingly, no assets or liabilities are reported in the financial statements of the City.

D. Related Party Transaction

Primary Government

During the 2008 fiscal year, the City sold the City’s Public Works facility to the La Marque Economic Development Corporation (“EDC”) for \$200,000. The EDC will re-market the property for industrial development.

V. Other Information (Continued)

E. Contingent Liabilities

Primary Government

Grants - The City receives significant financial assistance from numerous federal, state, and local governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions, specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City of La Marque, Texas at September 30, 2008.

Litigation - The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Discretely Presented Component Unit

At September 30, 2008, there are no lawsuits pending against the Corporation which would in the opinion of legal counsel, result in claims which would have a material effect on the financial statements of the Corporation.

F. Other Post Employment Benefits

The City provides post-employment healthcare benefits as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA) to all employees who retire from the City of La Marque. Insurance premiums are fully funded by the City as required by council policy. During the year ended September 30, 2008 seventeen participants were eligible to receive benefits. The City paid \$79,976 in premiums to insure former employees.

G. Employee Retirement Systems and Pension Plans

Plan Description

The City provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), one of 827 currently administered by TMRS, an agent multiple-employer public employee retirement system.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150%, or 200%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

V. Other Information (Continued)

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows (as of 4/01/08*):

Deposit Rate:	5%
Matching Ratio (City to Employee):	2 to 1
A member is vested after	5 years

Members can retire at certain ages, based on the years of service with the City.

The Service Retirement Eligibilities for the City (expressed as years of service/age) are:
5 yrs/age 60, 20 yrs/any age

The City of La Marque is one of 827 municipalities having the benefit plan administered by TMRS. Each of the 827 municipalities have an annual, individual actuarial valuation performed. All assumptions for the 12/31/07 valuations are contained in the 2007 TMRS Comprehensive Annual Financial Report, a copy of which may be obtained by writing to P.O. Box 149153, Austin, Texas 78714-9153.

Contributions

Under the state law governing TMRS, the actuary annually determines the City contribution rate. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 30-year amortization period. The projected unit credit actuarial cost method is used for determining the City contribution rate.

Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect. (i.e. December 31, 2007 valuation is effective for rates beginning January 2009).

(* To ensure the most accurate future rates are determined for the City, TMRS provided plan provisions as of 4/01/08 to the actuary in calculating the 12/31/07 valuation).

V. Other Information (Continued)

V. Other Information (Continued)

Pension Plan B Supplemental Annuity Program

Description of Plan and Terms

Plan - The City maintains a supplemental annuity program, a single-employer defined benefit pension plan.

Plan Membership - All permanent employees of the City are eligible to qualify for the annuity program. The City funds and administers the annuity program. All employees of the City, who have a total of "80" points or more are eligible for the annuity program.

The calculation to determine the amount of points for an employee is to add the employee's number of years of service with the City as a full-time employee to the age of the employee at the time of retirement. This program is limited to full-time employees and seven annuitants, currently.

Plan Benefits - After an eligible employee has selected his retirement option under the Texas Municipal Retirement System and a determination of his monthly TMRS Annuity has been finalized, then that monthly TMRS Annuity would be multiplied by twenty-five percent (25%) to equal the amount of the Supplement the retiree would receive twelve (12) times each year. The amount of the Supplement would be revised annually should the TMRS Annuity change.

The Supplemental Annuity would cease when the employee reaches age sixty-five (65). In the event of death prior to age sixty-five (65), the surviving spouse would receive the Supplemental Annuity until age sixty (60).

Funding Requirements - The cost of the annuity program is funded by the employer. Annuity payments for the year ended September 30, 2008 were \$30,365. The annuity program is a limited program; therefore, unfunded liabilities will remain immaterial, and funding will remain approximately level over time. Annual contributions to the annuity program are from current resources.

Analysis of the dollar amounts of actuarial value of assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of Texas Municipal Retirement System's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the Public Employee Retirement System. Trends in unfunded actuarial accrued liability and covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability and covered payroll approximately adjusts for the effects of inflation and aids analysis of Texas Municipal Retirement System's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the Public Employee Retirement System.

Other Supplementary Information

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Hotel/Motel Room Occupancy Tax Fund - This fund accounts for revenues derived from the City Room Occupancy Tax. State Statutes require that such revenues be used for (a) the acquisition of sites for and the construction, improvement, operation, and maintenance of convention center facilities; (b) advertising for general promotion and tourist advertising of the City; (c) the encouragement, promotion, improvement, and application of the site; and (d) historical preservation and restoration.

Section 8 Fund - This fund accounts for a federal grant from the United States Department of Housing and Urban Development used for housing assistance and utility payments.

Drug Seizure Fund - This fund accounts for money and property forfeitures arising out of the Health and Safety Code (formerly the Controlled Substance Act). Proceeds are used only for law enforcement purposes.

Home Grant - This fund accounts for grants received to increase available funding to provide affordable housing and related services.

Public Improvement District - This fund accounts for assessments levied on property within Public Improvement Districts. The funds are used to pay debt related to infrastructure improvements within the City.

Homeland Security Grant - This fund accounts for a federal grant from the U. S. Department of Homeland Security that is used to improve emergency response and homeland security.

Parks Fund - This fund accounts for the collection of donated park improvement funds restricted to park improvement activities.

Court Technology Fund - This fund accounts for the receipt of revenues from court fines and is restricted to expenditures for court technology.

Court Security Fund - This fund accounts for the receipt and expenditures of revenues from court fines for court security.

Child Safety Fund - This fund accounts for the receipt and expenditures of revenues derived from school zone violations and is restricted to funding for child safety initiatives.

LEOSE Training Fund - This fund accounts for revenues from the Law Enforcement Officer Standards and Education and is restricted to expenditures related to the continuing education and training of persons licensed as commissioned peace officers.

Clean City Fund - This fund accounts for the revenues and expenditures related to enforcement of existing city ordinances.

Motco Landscape Fund - This fund accounts for revenues and expenditures related to beautification of a former industrial site.

Debt Service Fund

This fund is used to account for the accumulation of resources for the payment of interest and principal on long-term debt.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Equipment Replacement - to account for the internal cash funding for equipment replacement costs as needed by City departments.

Equipment Maintenance Insurance - to account for the internal cash funding for equipment maintenance insurance costs as needed by City departments.

CITY OF LA MARQUE TEXAS
STATISTICAL SECTION

This part of the City of La Marque’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

Contents	Page
<i>Financial Trends</i>	112
These schedules contain trend information to help the reader understand how the government’s financial performance and well-being have changed over time.	
<i>Revenue Capacity</i>	119
These schedules contain information to help the reader access the government’s most significant local revenue source, the property tax.	
<i>Debt Capacity</i>	134
These schedules present information, to help the reader assess the affordability of the government’s, current levels, of outstanding debt and the government’s ability to issue additional debt in the future.	
<i>Demographic and Economic Information</i>	141
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government’s financial activities take place.	
<i>Operating Information</i>	146
These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial report relates to the services the government provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

2008	3,040,373	2,896,271	95.26%		2,896,271	95.26%

- (1) Appraised value less exemptions equal taxable assessed value. The beginning taxable value net of adjustments times the tax rate set by City Council each fall equals the total net tax levy. The net tax levy for prior years reflects ongoing adjustments applied to that year's tax levy.
- (2) Excludes the subsequent 60 days tax collections recorded as revenue in the fund financial statements in accordance with the modified accrual basis of accounting.

	Subtotal, overlapping debt			170,122,158
	City of La Marque Direct Debt			15,745,000
	Total Direct and Overlapping Debt			\$ 185,867,158

Sources:

Amounts of debt outstanding were obtained from each of the governmental entities.

Estimation of percent overlapping derived from various sources, including information contained in "Texas Municipal Reports", published by the Municipal Advisory Council of Texas.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of La Marque, Texas. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for paying the debt, of each overlapping government.

**Independent Auditor's Report on Internal Control over Financial
Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

The Honorable Mayor and
Members of the City Council
1111 Bayou Road
La Marque, Texas 77568-4299

We have audited the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of City of La Marque, Texas (the "City") as of and for the year ended September 30, 2008 which collectively comprise the City's basic financial statements and have issued our report thereon dated May 28, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects an entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a significant deficiency in internal control over financial reporting as item #08-01.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, of the significant deficiencies described above, we consider item #08-01 to be a material weakness.

The Honorable Mayor and
Members of the City Council

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items #08-03 and #8-05.

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the City's response and, accordingly, we express no opinion on it.

**Independent Auditors' Report on Compliance with Requirements Applicable
to Each Major Program and on Internal Control over Compliance
in Accordance with OMB Circular A-133**

The Honorable Mayor and
Members of the City Council
1111 Bayou Road
La Marque, Texas 77568-4299

Compliance

We have audited the compliance of City of La Marque, Texas with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2008. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City's compliance with those requirements.

In our opinion, the City of La Marque, Texas complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2008. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 08-06.

Internal Control over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

The Honorable Mayor and
Members of the City Council

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

CITY OF LA MARQUE, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2008

I. Summary of Auditors' Results

Financial Statements

Type of auditors' report issued:	Unqualified
Internal control over financial reporting:	
Material weakness(es) identified?	Yes, Item #08-01
Significant deficiencies identified that are not considered to be material weaknesses?	None Noted
Noncompliance material to financial statements noted?	Yes, Items #08-03 & #08-05

Federal Awards

Internal control over major programs:	
Material weakness(es) identified?	No
Significant deficiencies identified that are not considered to be material weaknesses?	None Noted
Type of auditors' report issued on compliance with major programs:	Unqualified
Any audit findings disclosed that are required to be reported in accordance with section 510(a) OMB Circular A-133?	Yes, Item #08-06
Identification of major programs	
Name of Federal Program or Cluster	CFDA Numbers
Federal Emergency Management Agency (Passed Through) Texas Department of Public Safety	97.036
Dollar Threshold Considered Between Type A and Type B Federal Programs	\$300,000
Auditee qualified as low-risk auditee?	Yes

CITY OF LA MARQUE, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
For the Year Ended September 30, 2008

II. Financial Statement Findings

Material Weakness

Finding 08-01

Condition: Payment to Painted Meadows for Public Utility District #1 (“PID #1”) developer reimbursement was not properly recorded in accounts payable at 9/30/2008.

Criteria: Generally Accepted Accounting Principles require governmental funds to be accounted for on the modified accrual basis of accounting.

Cause: Developer reimbursement for PID #1 was accounted for using the cash basis of accounting.

Effect: Material understatement of accounts payable and related expenditure.

Recommendation: The City should account for all governmental funds using the modified accrual basis of accounting as required by Generally Accepted Accounting Principles.

Control Deficiency

Finding 08-02

Condition: Receipting of cash at a location other than centralized cashier.

Criteria: The receipting of cash is a function of the centralized cashier.

Cause: Game room license fees are being receipted by personnel at the Police Department, rather than by centralized cashier.

Effect: Receipting of cash by personnel other than centralized cashier increases the likelihood that misappropriation due to fraud or errors could occur and not be detected in a timely manner.

Recommendation: The City should implement a policy that requires all receipting of cash to be performed by the centralized cashier.

CITY OF LA MARQUE, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
For the Year Ended September 30, 2008

II. Financial Statement Findings (Continued)

Compliance and other matters

Finding 08-03

Condition: Expenditures exceeded appropriations in the general fund as follows:

General fund:	
General government	\$ 84,857
Public safety	420,819
Public works	170,241
Sanitation	67,448
Capital outlay	10,775
	<u>\$ 754,140</u>
Debt service fund:	
Principal on long-term debt	\$ 2,538
	<u>\$ 2,538</u>

Criteria: State law mandates that expenditures not exceed appropriations on a functional level.

Cause: Inadequate procedures to ensure that expenditures are not made in excess of appropriations.

Effect: Non-compliance with state law.

Recommendation: The City should implement procedures to review budget to actual comparisons prior to year end so that necessary budget amendments may be presented to council. Additionally, encumbrance accounting should be utilized to ensure that Budget Managers do not exceed their budget.

Finding 08-04

Condition: The City's investment in public funds investment pools exceeded the maximum allowed by the council approved investment policy.

Criteria: The City's council approved investment policy limits the percentage that the City may invest in public funds investment pools to 70 percent.

Cause: Inadequate monitoring of the diversification of City investments.

Effect: Non-compliance with the City's investment policy.

Recommendation: The City should maintain diversification of its investments as required by the council approved investment policy, or change the investment policy to increase the maximum allowed investment for public funds investment pools.

CITY OF LA MARQUE, TEXAS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
For the Year Ended September 30, 2008

II. Financial Statement Findings (Continued)

Compliance and other matters (Continued)

Finding 08-05

Condition: The City is not monitoring purchases which exceed \$50,000, which over a twelve month period, could be subjected to State bidding requirements.

Criteria: Competitive procurement procedures are required for making purchases involving dollar amounts in excess of \$50,000 or more, in the aggregate, over a twelve month period.

Cause: During the course of the audit, it was noted that a contract for demolition services did not follow state bid laws for competitive procurement.

Effect: This condition caused the City to be in technical non-compliance with the state bidding requirements for certain purchases. In addition, competitive procurement procedures may result in lower costs per unit or in the aggregate.

Recommendation: The City should establish procedures to monitor purchases of similar goods or services on a regular basis to identify items that should be purchased under competitive procurement procedures.

III. Federal Awards Findings And Questioned Costs

Control Deficiency

Finding 08-06

Condition: Two project worksheets that had been submitted to FEMA required revisions to expenditures for overtime and equipment.

Criteria: After submitting project worksheets related to overtime and equipment to FEMA, two of the project worksheets were found to have errors. The project worksheets were then de-obligated, revised and resubmitted and subsequently approved by FEMA.

Cause: Inadequate monitoring of FEMA expenditures and related reporting.

Effect: Potential non-compliance with federal program requirements.

Recommendation: The City should implement procedures for monitoring of all federal expenditures and related reporting.

CITY OF LA MARQUE, TEXAS

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended September 30, 2008

1. **Basis of Presentation:** The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of City of La Marque, Texas and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.
2. The City utilizes the fund types and accounting policies as detailed in Note I of notes to the financial statements.

Special revenue funds – These funds are established to account for federally-financed or expenditures legally restricted for specified purposes. Generally, any unused balances are returned to the grantor at the close of specified project periods. Project accounting is utilized to maintain integrity for the various sources of funds.

The Section 8 Housing Assistance Program is accounted for in a Special Revenue Fund. Expenditures for this program are not specifically attributable to the Federal revenue source and are shown on this schedule in an amount equal to revenue for balancing purposes only.

Expenditures for the Community Development Block Grant are accounted for in a separate fund. Expenditures were booked as increases to capital assets.

3. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental fund types are accounted for using a current financial resources measurement focus. Within this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for governmental fund types. This basis of accounting recognized revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures are recorded in the accounting period in which the fund liability is incurred, if measurable.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

4. The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, OMB Circular A-133 Compliance Supplement (March 2007).
