

TO: Mayor Keith Bell
City of La Marque City Council
FROM: Charles Jackson, City Manager 
DATE: March 8, 2021
SUBJECT: City of La Marque COVID-19 Operations Plan - Weekly Rates

In response with the City Council's request upon approval of the recommended COVID-19 Citywide Operations Plan, the following weekly positivity rates for COVID-19 were recorded for the month of February:

<u>Week Ending</u>	<u>Positivity Rate</u>
February 13, 2021	12.6%
February 20, 2021	10.85%
February 27, 2021	14.98%
March 6, 2020	12.2%

In accordance with the approved policy, we will continue approved COVID-19 Operations through the month of March.

Further, after reviewing GA-34 with our City Attorney, here are some notes on its impact on City operations:

- All internal administrative policies issued during the pandemic appear to be consistent with GA-34;
- The only change for us as a City will be that the Mayor no longer has regulatory authority over outdoor events of more than 10 people when those events do not occur on City property; and
- Although this is not a change, GA-34 allows all businesses to open to 100% unless, provided our area meets the requirements, the County Judge issues an order requiring otherwise (which is not the case currently).
